CAS Individual Community Project

- **Description of my project/plan:**

For my individual community project I will be holding a bake sale at a church with the permission of whoever is in charge. I will be selling cupcakes, cookies and brownies as well as distribute free chocolate milk to all the children. Then whatever proceeds I have gathered I will be donating them to a charity or an orphanage. I plan on doing the bake sale on a Friday due to the fact that there will be several families with their children at the church. I plan on setting a stall outside the church for the bake sale so when the church service has finished everyone will see the bake sale and come over.

CAS Individual Community Project

- **Plan/steps**

I plan on choosing a church where I can hold my bake sale and then I must ask permission from the priest or whoever is in charge and explain to them my plan/goal and get their approval.

I will find a place that produces stalls that I can customize especially for the bake sale.

I need to decide on what exactly I should bake and how many.

I need to decide exactly what charity or orphanage I want to donate the money to.

CAS Individual Community Project

- **My Goal**

My goal is to gather over 100 JOD's so I can donate that money to a charity.

This bake sale will benefit everyone; the charity/orphanage I am donating to, the people who will purchase goods from the bake sale and this bake sale will also benefit me, this project will allow me to learn how to organize an event and this project allows me to give back to the community as well.
