AIM OF OUR PROJECT

- The leading step to having a strong society is by standing together and working hand in hand. We wanted a project not only we can work on, but the entire society to participate in. A project that is simple yet beneficial, which can help eradicate hunger in our society.
- Each and everyday we see students throwing their sandwiches in the garbage because they don't want to eat it. We're too selfish to think of others who wish to have a bite of that sandwich. Why not donate it to them?
- This is where we got our inspiration from. Seeing such cases everyday has left a mark on us. We wanted to open the eyes of people and show them the reality of this harsh life. Not everyone can afford buying a sandwich, so instead of throwing it in the garbage why not give it a poor person who **NEEDS** it? Or why not even **SHARE** it with them?

HOW DID WE ACHIEVE OUR PROJECT?

- In order to get enough money to buy sandwiches for large amount of people, we sold handmade bracelets and necklaces. We were able to collect 70Jds in 2 weeks.
- When the money was collected, we bought Arabic bread and cheese, falafel and cucumbers and other things that could be put inside a sandwich. Luckily we were able to make 60 sandwiches.
- We went around the streets of amman to give out these sandwiches.
- When asked to take pictures, many homeless people refused to various reasons. We respected their desire cause it all comes down to helping them and making them feel better. However, this formed an obstacle where we couldn't gather enough pictures to make a video

HOW DID WE INFORM PEOPLE ABOUT THE OUR PROJECT?

- Social networks was the first thing we thought of, especially that we're the generation controlled by technology, precisely the social media. We start tweeting via a twitter account called **passthesandwich**, where we encouraged people to give sandwiches to the poor. Moreover, we posted pictures of us giving out sandwiches, hoping that it will be a motivating force for everyone to participate in this project.

WHAT DID WE LEARN FROM THIS PROJECT?

- This project showed us that there is always people who need help and we all live on this planet to help each other. Even the little things like giving a sandwich can make a difference.
- Doing such simple project had a great impact on both of our lives. It was such an amazing feeling helping the people in need, people who can't afford living.
- "The day that hunger is eradicated from the earth there will be the greatest spiritual explosion the world has ever known. Humanity cannot imagine the joy that will burst into the world."- *Federico Garcia Lorca. LETS SPREAD THE JOY!*
